Request for Information as to the Status of Application  
(Status Letter)

Commissioner for Patents  
P.O. Box 1450  
Alexandria Va. 22313-1450

Sir:

You are requested to advise the above noted Applicant as to the present status of this application. A duplicate of this letter is enclosed herewith in case the PTO may wish to use it in responding to this request. Also enclosed herewith is a self addressed post card to be use in advising the Applicant that this Request has been received buy the PTO.

This request is being submitted because there is a question as to the status of this application and because several calls to the PTO as subsequently noted have

failed to get this information. The last communication received relative to this application was a document mailed on Nov. . 16, 2006 but dated Nov. 9, 2006 in which it was stated:

*"The examiner has determined that applicant's 10/2/06 Amendment violates the provisions of 37 USC 1.3 Accordingly the examiner has acted on said amendment in accordance with MPEP 714.19(k)."*

Following this statement a series of names and telephone numbers were set forth in this action for use in inquiring about this application. ,

In an effort to clarify the status of this application the undersigned talked to a "Jerry" in what is believed to be called "customer service in the PTO who instructed the applicant to call Examiner Palabrica on December 6,2006. Since he did not respond to this call I left a message for him to return the call. When no response was received to this message I called Mr. Jack Keith on Dec. 13,2006. When I was unable to contact him at this time I left a message for him to return my call. No respnse has been received to this request.

Under the rather unique circumstances concerning this application early response to this request is requested. The Applicant is proceeding on the assumption that the application is pending and awaiting an action by the PTO. To avoid a possible error a clarification of the status of this application is requested.

December , 2006

Respectfully submitted,

  
John Dash, Applicant
